

Sequin & Pearl Embellished Fashion Doll Gown Sewing Tutorial

1.Prepare and hem the circle skirt.

After cutting out the circle skirt and creating the waist opening, check the bottom edge of the fabric. If the fabric requires hemming, fold the raw edge towards the wrong side and stitch around the skirt to create a neat, seamless finish. If no hemming is required, proceed to the next step.

2.Fit the skirt and position the statement bodice.

Fit the circle skirt onto your doll and use pins to hold it securely in place. Arrange the trimmings or decorative fabric you want to use for the statement bodice, then measure and adjust the pieces until you are happy with the length, fit, and placement.

3.Position and measure the statement bodice.

Fit the skirt and waist band onto your doll and secure them in place. Arrange the trimmings or fabric you want to use for the statement bodice and use pins to hold them in position. Adjust and trim the pieces until you are happy with the length and placement.

4.Attach the statement bodice.

Following the arrangement you made on the doll, carefully hand-stitch the trimmings or decorative fabric directly onto the waist of the circle skirt. Use small, neat stitches to securely attach each piece while keeping the stitching as discreet as possible.
